

L670 Disposable Manual Resuscitator

L670 Disposable Manual Resuscitators are latex-free, single patient use systems for manual resuscitation. These resuscitators feature a unique bag made from thermoplastic rubber bag which provides a superior grip and improved heat resistance compared to other bag materials. The design of the bag gives first responders a superb “feel” of the patient’s respiratory response. Manometers and PEEP valves can be quickly and easily attached for enhanced monitoring and resuscitation.

When connected to a metered low flow (15-20 lpm) oxygen source via the integrated DISS/barbed connector, the L670 resuscitator delivers FiO_2 concentrations between 73% and 97%. When used with an L471 bag refill valve, it delivers 100% oxygen.

Child and infant bags are available with a pressure relief valve, which activates at 45 cm H_2O and can be over-ridden by the operator.

L670 disposable manual resuscitators come six per case, and each comes packaged in a compact, tamper-proof bag for easy storage and disposal.

Disposable Manual Resuscitator

L670	Disposable Cuffed Mask Size	Reservoir Bag	PEEP	Disposable Pressure Manometer	45 cm H₂O Pressure Relief Valve

ACCESSORIES					
890060	Disposable Manometer, 12/case				
LPEEP	Disposable PEEP Valve with adapter, 12/case				
Every L670 includes 7 feet of oxygen tubing with DISS/barbed connector					
† Comes with 3 feet of corrugated tubing to connect directly to a 22 mm OD oxygen source					
*CE 0413					

Bag Volume: Adult: 1488 ml
Child: 665 ml
Infant: 258 ml

Patient Valve Dead Space: 7.8 ml (not including mask)

Patient Connection: 22 mm outside diameter
15 mm inside diameter
30 mm outside diameter

PEEP Connection:

Operating Temperature: -30°F to 125°F
(-34°C to 52°C)

Storage Temperature: -40°F to 160°F
(-40°C to 71°C)

Materials:

Bag: Thermoplastic rubber

Mask: Alpha PVC 3006-95

Deflector: HDPE

Valve and Oxygen Enrichment Ports: Phillips 66 KR03

890060

The Disposable Manometer provides accurate airway pressure monitoring from 0-60 cm H₂O

LPEEP

Optional disposable 30 mm PEEP valve with 19 mm valve adapter to complete the resuscitation system.

- Adjustable from 0-20 cm H₂O
- Fits easily on the exhalation valve
- Can be used on any make of manual resuscitator
